TERMS & CONDITIONS

1. **Offering and Governing Provisions.** Snap-on Equipment Solutions, a division of IDSC Holdings, LLC ("Seller") offers for sale or resale to the buyer (the "Buyer"), identified in the attached price quotation (the "Quote") equipment and services on the terms and conditions set forth herein. Seller offers to sell equipment identified in the Quote (the "Equipment") and services identified in the Quote (the "Services") subject to the following terms and conditions. Buyer agrees to abide by these terms and conditions and not substitute additional, different terms. Seller hereby rejects any different or conflicting terms or conditions set forth on any purchase order, acknowledgement, or other document furnished by the Buyer. Any failure by Seller to object to any other terms and conditions shall not be construed as an acceptance of such terms and conditions or a waiver of these terms and conditions.
2. **Product changes.** From time to time product enhancements, and/or additional products or superseded items may be available. While these items may not be specifically called out in the current catalog, please see Seller's Equipment Solutions Region Manager for details.
3. **Prices.** Prices of Equipment and Services shall be the prices cited in the Quote and are valid provided that a purchase order and/or contract for work quoted is received within 30 days of the date of the Quote. The Quote may contain discounts based on unit volume. If unit volume commitments identified in the Quote are not met, Seller reserves the right to renegotiate prices or revert to published prices in its then current Catalog. Seller reserves the right to modify pricing from time to time upon notice to Buyer of such changes along with documentation that such price changes are necessary due to a substantial change in manpower or equipment requirements related to the Equipment or Services.
4. **Terms of Payment.** For all payments made directly to Seller other than credit card, payment terms are net thirty (30) days from the date on the invoice, unless other terms have been agreed to in writing by Seller (see Seller's Equipment Solutions Region Manager for additional options); any payments not made directly to Seller shall be according to the payment terms then established by Seller. Seller reserves the right to charge interest of up to 1.5% per month (but not more than the highest rate permitted by law) on all overdue accounts. Seller reserves the right to charge a processing fee for all credit card orders up to a maximum of 4%. This fee will be applied to the invoice.
5. **Sales and Similar Taxes.** Any manufacturer's tax, occupation tax, use tax, sales tax, excise tax, duty, custom, inspection and testing fee, or any other tax, fee, interest, or a charge of any nature whatsoever imposed by any governmental authority, on or measured by the sale by Seller to Buyer, shall be paid by Buyer in addition to the prices quoted or invoiced. If Buyer is exempt from any such tax or charge, Buyer shall provide Seller the applicable exemption certificate. If Seller is required to pay any such tax, fee, interest or charge, Buyer promptly shall reimburse Seller therefor.
6. **Errors.** Stenographic and/or clerical errors may occur from time to time in the catalogs, price schedules, program bulletins and announcements, order paperwork, and other documents developed and distributed by Seller in connection with the marketing of Equipment and Services. All such errors are subject to correction by Seller.
7. **Orders.** Orders for Equipment may be placed by phone, fax or by delivery of a copy of the Quote signed by the Buyer to Seller's Equipment Solutions Region Manager. Orders may also be placed by Buyer mailing one of Seller's standard order forms to Seller. All orders are subject to these Terms and Conditions, as amended or revised from time to time by Seller. At Seller's discretion, Seller may require Buyer to confirm in writing any order placed by phone or fax. Buyer may place additional orders for Equipment at any time during the duration of the Quote. If an order is changed, pursuant to Paragraph 8, below, Buyer may be liable to Seller for manufacturer imposed costs, cancellation charges or restocking charges. All such changes made to orders shall be subject to these Terms and Conditions.
8. **Cancellation.** No order, once received and accepted by Seller, may be canceled or altered by Buyer except upon Seller's written consent. If any order is canceled by Buyer, Buyer shall pay a cancellation fee to Seller as reasonably assessed by Seller.
9. **Returns.** Equipment may be returned only upon Seller's advance written permission, except as provided below. If Buyer wants to return any Equipment, Buyer's request to return such Equipment shall be made on a return goods authorization form available from Seller (please see Seller's Equipment Solutions Region Manager). Returned Equipment must be new, unused, and in the original carton, must be securely packaged to reach the location designated by Seller without damage, and must be shipped F.O.B. designated location, freight prepaid. Returned Equipment may also be subject to restocking or similar charges, as determined by Seller. Seller will issue credit to Buyer for any Equipment returned only to the extent that the manufacturer of such Equipment issues credit to Seller for the return of such Equipment.

* This Paragraph 9 shall not apply to any Equipment that Seller delivers in error. If Seller delivers Equipment in error, Seller's Equipment Solutions Region Manager will coordinate the return of such Equipment and the reorder and shipment of replacement Equipment. Please see Seller's Equipment Solutions Region Manager for additional details.
10. **Delivery.** Except as otherwise specified in the Catalog, or as noted in the Quote, or except as otherwise agreed by Buyer and Seller in writing, Equipment shall be sold F.O.B. manufacturer's shipping point, commercial carrier freight prepaid. Seller has the right to select the carrier and mode of transportation. Seller will manage and coordinate all such deliveries and unless agreed upon in advance and stated in the Quote, Seller reserves the right to make delivery in installments. Unless agreed upon in advance and stated in the Quote, delivery installments shall be separately invoiced and paid for when due as set forth in Paragraph 3 (Terms of Payment) of these Terms and Conditions, without regard to subsequent deliveries. Title to Equipment and risk of loss or damage shall pass to Buyer at the F.O.B. point. In the event of in-transit damage to the Equipment, Buyer shall accept the shipment and contact Seller, who will assist Buyer in service support and filing a freight claim with the delivering carrier. Claims must be filed within ten (10) days after receipt of the damaged shipment (with a copy to Seller) or such claims will be deemed to have been waived.

For all claims for shortages or other errors in delivery, please contact Seller for assistance in filing any claims with manufacturer. Claims must be made in writing to manufacturer (with a copy submitted to Seller) within ten (10) days after receipt of shipment. Failure to give any notices required under this Paragraph 9 shall constitute unqualified acceptance and a waiver of all such claims by Buyer.
11. **Unloading of Equipment.** When agreed upon in advance, and noted in the Quote, the Seller will manage the unloading of Equipment and staging in preparation for installation. Unless explicitly stated in the Quote the Buyer will be responsible for unloading of Equipment. Buyer shall be solely responsible for providing such unloading devices (e.g. fork lift, tow truck) as may be required to unload Equipment from the carrier.
12. **Installation of Equipment.** Seller generally prefers to install equipment for Buyer; however, unless otherwise agreed upon at the time of order and stated in the Quote, the Buyer will be responsible for installation, on-site testing, or start-up of Equipment. Seller shall cause the manufacturer to furnish Buyer with all written installation manuals, directions, and instructions that the manufacturer ordinarily supplies with the Equipment. Certain manufacturers and types of equipment include on-site testing and start-up of equipment. Please see Seller's Equipment Solutions Region Manager for additional information regarding such on-site testing and start-up of equipment by manufacturers. Furthermore, certain manufacturers offer extended service contracts for equipment. Please see Seller's Equipment Solutions Region Manager to learn more about the terms and conditions under which such extended service contracts are available to Buyer. Such extended service contracts and their terms and conditions shall be determined between Buyer and manufacturer.

TERMS & CONDITIONS

- 13. Security Interest.** The Buyer hereby grants Seller a security interest in all Equipment ordered or delivered hereunder, and Buyer shall execute and deliver any financing statements or other documents as may be requested by Seller in order for Seller to establish and maintain a perfected security interest in the Equipment, which security interest shall continue until all amounts due to Seller by Buyer, or that become due to Seller by Buyer hereunder, have been paid in full.
- 14. Right of Set-Off.** In addition to any right of set-off provided by law to Seller, all monies and accounts owed Buyer hereunder shall be considered net of indebtedness of Buyer to Seller (including all its divisions, operating units and subsidiary corporations) arising from whatever cause; in addition, Seller has the right to deduct any amounts due to or that become due hereunder to Seller from any amounts due or to become due to Buyer from Seller.
- 15. Notice of Defect.** "Defective Equipment" is equipment that fails to perform upon delivery and installation. In the event Equipment supplied hereunder is claimed to be Defective, Buyer will contact Seller for assistance in filing any claims with the manufacturer of such Equipment (please see Seller's Equipment Solutions Region Manager for assistance). All claims must be made within 30 days of receipt of such Equipment by Buyer. Seller shall be given ample opportunity to inspect Equipment and work with the manufacturer to achieve a reasonable solution. Initiation of the terms of warranty does not apply to Defective Equipment; hence only satisfactory, non-defective Equipment commences the terms of warranty.
- 16. Warranty; Limitation on Liability.** The manufacturer of the Equipment may provide a warranty related to the Equipment. Seller makes no additional and/or extended warranty to Buyer regarding the Equipment (other than a warranty of title) and Seller authorizes no third person or party to assume any warranty obligation or liability on Seller's behalf. However, certain manufacturers offer extended warranties through the program; please see Seller's Equipment Solutions Region Manager to learn more about extended warranties as the only warranties applicable to the Equipment are those, if any, extended by the respective manufacturer. The manufacturer will furnish to Buyer any and all applicable warranty documents. If a warranty issue arises, Seller will assist Buyer in obtaining warranty services from the manufacturer or manufacturer's warranty agent. Seller hereby assigns to Buyer, without recourse, any applicable warranties extended to Seller. Such assignment shall constitute Seller's sole obligation and Buyer's sole and exclusive remedy from Seller with regard to defective Equipment.
- Seller will assign any applicable manufacturer's warranty with respect to the Equipment sold hereunder. In addition, to the extent that Seller fails to perform any of its obligations hereunder after a 30-day cure period following receipt of written notice of such alleged failure, Seller may, at its discretion, negotiate a refund amount no greater than 2% of the purchase price for the piece of Equipment with respect to which Seller has failed to perform its obligations.
- The warranties in this Paragraph 16 above are in lieu of any other warranties, express or implied, including the warranties of merchantability or fitness for a particular purpose, each of which is disclaimed by Seller. In no event will Seller be liable for any incidental, consequential, or special damages or damages for loss of profits arising out of the transactions contemplated hereby.

SELLER OR ITS AFFILIATED COMPANIES SHALL HAVE NO OBLIGATION OR LIABILITY TO BUYER UNDER, AND HEREBY DISCLAIMS, ANY EXPRESS OR IMPLIED WARRANTY RELATED TO THE EQUIPMENT, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY AGAINST INFRINGEMENT OR ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

- 17. Force Majeure.** Neither party shall be liable for any costs, expenses, or damages of any nature, whether general, consequential, as a penalty, or liquidated or otherwise caused by or arising out of failure or delay in the performance of any of its obligations (other than payment obligations) under this Agreement or for any consequence thereof if such failure or delay is due to reasons beyond its reasonable control, including but not limited to, fire, flood, war, terrorist attack, accident or explosion, acts or omissions of any governmental authority or Buyer, civil unrest, riot or insurrection, strikes or labor difficulties, breakdown of essential machinery, priorities or embargoes, shortages, delays in transportation or inability to obtain labor services, energy, fuel, or materials from Seller's usual sources. In the event of such delay, the time for performance by the party liable to perform shall be extended by a period equal to the period of delay.
- 18. No Agents.** While manufacturers of the Equipment are contracted business partners of Seller, from time to time sales representatives of various manufacturers may visit Buyer to promote the sale of equipment. Buyer understands and acknowledges that all such representatives act for and on behalf of their respective manufacturers only, and unless agreed to in writing by Seller, no statements or representations made by such sales representatives are to be attributed to Seller or any of its divisions, operating units, or subsidiaries.
- 19. Equipment Changes.** Seller has the right to discontinue or suspend the sale of any Equipment and to make or permit changes in design or specifications of any Equipment at any time without incurring any obligation or liability to Buyer with respect thereto; provided, however, that if any pending orders placed by Buyer would be affected by such a design or specification change, Seller shall give Buyer advance notice thereof and an opportunity to cancel such orders.
- 20. Waivers.** Except as otherwise provided herein, no omission or delay by either the Seller or Buyer at any time to enforce any right or remedy reserved to it, or to require performance of any of the terms and conditions herein, shall be a waiver of any such right or remedy to which either party is entitled, nor shall it in any way affect the right of either party to enforce such provision(s) thereafter.
- 21. Entire Agreement.** This Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter of this Agreement and supersedes all previous negotiations, agreements, commitments and representations written or oral with respect to the subject matter hereof. Each party undertakes that it has not entered into this Agreement in reliance upon any representation, promise or statement which is not expressly set out in this Agreement. This Agreement shall not be discharged, changed or modified in any manner except by instruments signed by duly authorized representatives of both parties.
- 22. Choice of Law.** These Terms and Conditions, and any contract for the sale of Equipment or Services by Seller, shall be governed by and construed in accordance with the laws of the State of Wisconsin, without reference to its principles of conflicts of laws. Any claims arising hereunder, which are not settled by negotiation, shall be prosecuted in the appropriate court of the State of Wisconsin or in a federal court located in the State of Wisconsin, and both parties hereby consent to the jurisdiction of such courts.

SAFETY

Following these safety rules is a good start toward protecting yourself and others from injury while using tools and equipment. Encourage everyone in the shop to make safety a priority.

GENERAL SHOP:

- Keep your shop clean.
- Have your fire extinguishers properly labeled and maintained.
- Always read and follow the manufacturers' product instructions for proper and safe product use.
- Make sure all exits are properly marked.
- Have the proper first-aid kit and eyewash station readily available and accessible.
- Have screens on compressor belts and guards on grinders.
- Handle hazardous waste properly.
- Keep all paint and solvents in closed, labeled containers.

HAND TOOLS:

- Use hand tools only for the specific purpose for which they were intended.
- Do not use any extension "cheater bar" on any handle.
- Never hammer on any tool, unless struck tool is specifically designed for the purpose, such as punches, chisels and wedges.
- Always wear safety goggles to avoid eye injury.
- Never use scraper, screwdriver or any other tool, other than pry bar, for prying.
- Keep tools free from grease and dirt.

POWER TOOLS:

- Wear safety goggles.
- Wear hearing protection.
- Avoid prolonged exposure to vibration.
- Read instructions before using any power tool.

LIFT EQUIPMENT:

- Use jacks only on hard, strong and level surface.
- Use jack stands in pairs.
- Check wheels to prevent vehicle from rolling.
- Do not exceed rated capacity of jack or jack stand.
- Lifts must be installed by experienced, licensed installer.

PRESSURE EQUIPMENT SYSTEMS:

- Wear safety shield.
- Wear protective clothing.
- Wear a protective mask.
- Do not pressurize tanks higher than maximum on gauge.
- Do not use parts washers without fusible link or safety valve intact.
- Do not expose solvents to flames, sparks or other sources of ignition.
