Service Facility Renovations and New Builds

WE ARE FLUENT IN IMAGE USA II.

- Toyota Design Discipline
- Maximize work flow
- Maximize technician productivity

We do it with our proven 5-step process. We begin with a consultation, where we help define your needs and goals. Then we create a custom design, using your information to craft an achievable solution. After presenting a detailed proposal, we manage all delivery and installation of your new equipment and then follow up with ongoing support to ensure you have a successful and profitable operation.

To contact a program representative
in your area, call (800) 368-6787.

Let us walk you
through the process.

No project is too small!

We are here to help. Don't hesitate to ask for our assistance. We can facilitate your projects, equipment purchases, financing and more...

❖ All lease financing, rates, and terms for the Dealer Equipment Program are subject to credit approval by Lessor and the terms of the Lessor's preferred lease documents. Taxes, shipping/install and cost of financing (e.g. Document fees) are extra. In the event of default the terms of the contract will apply and additional amounts may be due. Lease payments and terms provided are based on rates available as of 03/01/2011 on our \$1.00 buyout lease program. Actual lease rates will vary depending on the available terms offered at time of lease commencement. 1st and last lease payments due at lease signing. Contact your Approved Dealer Equipment Program for more details.

2Q 2011

CL Challenger Lifts

Symmetric 2-Post Lifts

Comes Standard with Stack Adapters and Frame Engaging Truck Adapters :

MODEL NO.

- **CLF15000** - 15,000 lb. Symmetric 2-Post Lift with single point air lock release *Reg. Dealer Price: \$11,402.00*
❖ Lease @ \$196 for 72 months

GET THE CLF15002 FOR THE PRICE OF THE CLF15000!

- **CLF15002** - 15,000 lb. Symmetric 2-Post Lift with single point air lock release and 2' extended height (*Reg. Dealer Price: \$11,713.00*) **\$11,402**
❖ Lease @ \$196 for 72 months

Versymmetric 2-Post Lifts

with directSPOT™ Offset 3-Stage Front & Rear Arms for Built-in Productivity

Versymmetric 2 Lifts in One™ design accommodates more vehicles than asymmetric only lifts.

Properly lifts all Toyota and Lexus vehicles within rated capacity.

MODEL NO.

- **CLFCL10V3** - 10,000 lb. Versymmetric 2-Post Lift with DirectSPOT™ offset 3-stage front & rear arms *Reg. Dealer Price: \$3,909.00*

GET THE CLFCL10V32 (EXTENDED HEIGHT) FOR THE PRICE OF THE CLFCL10V3!

- **CLFCL10V32** - 10,000 lb. Versymmetric 2-Post Lift with offset 3-stage front & rear arms and 2' extended height (*Reg. Dealer Price: \$4,224.00*) **\$3,909**

10,000 lb. AquaVantage™ Inground EnviroLift

with Offset 3-Stage Front & Rear Arms

MODEL NO. CLFAV1020WV

Reg. Dealer Price: \$9,575.00

- Patented technology runs on compressed air and tap water instead of electricity and oil.
- Fewer moving & replacement parts = less maintenance.

PROMO PRICE:
\$9,196
CLFAV1020WV
❖ Lease @ \$191 for 60 months

CLFAV1020WV
10,000 lbs.
Lifting Capacity
w/ 200 p.s.i.

EnviroLift®
with **AquaVantage™**

Get 2' Extended Height versions of featured Symmetric or Versymmetric 2-Post Lifts for the price of the Standard Height model.

Versymmetric® Plus

CLFCL10V3
10,000 lbs.
Lifting Capacity

Additional 3.2% Shipping & Handling Fee will be applied to invoice.

SmartLift® In-Ground Lifts

With over 50,000 units in operation, a self contained and environmentally-friendly operation, this lift has become the preferred choice in new facility construction.

Enhanced Features:

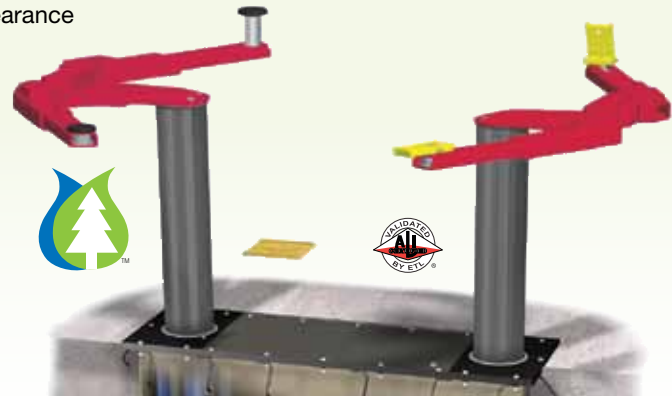

- The TRIO™ Smartlift features a low-profile yoke design and greater drive thru clearance than other models.
- The new arm design has 18% more reach with a shorter arm!
- Multi-position adapters have finite adjustment, allowing pinpoint placement of adapter to lift point

Retains all features of previous generation Smartlifts, including total containment, ease of service, and Liquid Detection System™ on inbay models.

MODEL NO.

- **ROTSL210** - 10,000 lbs. capacity with flip-up adapters (Reg. \$7,461.00) **\$7,312**
- **ROTSL210RA** - 10,000 lbs. capacity with rubber adapters (Reg. \$7,461.00) **\$7,312**
❖ Lease @ \$152 for 60 months
- **ROTSL210MP8** - 8,000 lbs. capacity moveable pad (Reg. \$7,255.00) **\$7,110**
❖ Lease @ \$148 for 60 months

THE NEW SMARTLIFT®
Rotary TRIO™

Shown: ROTSL210RA on left / ROTSL210 on right. Must choose preference when ordering. Shown with optional adapter extensions. TRIO arms only available on 10,000 lbs. capacity models.

Two-Post Surface Lifts

Features:

- Inbay® models include dual controls with one-touch up / down / lock release, integrated air and electric connections, and OSHA-compliant lock-out/ tag-out disconnect switch.
- 3-stage arms on RA models provide more extension and retraction to handle a broader range of vehicles.

MODEL NO.

- **ROTSPOA10** - 10,000 lbs. capacity asymmetric lift (Reg. \$3,691.00) **\$3,618**
- **ROTSPOA10RA** - 10,000 lbs. capacity asymmetric lift with 3-stage arms (Reg. \$3,895.00) **\$3,818**
- **ROTA10IRA** - 10,000 lbs. capacity asymmetric lift with inbay controls and 3-stage arms (Reg. \$4,356.00) ... **\$4,269**
- **ROTSPO12RA** - 12,000 lbs. capacity three-stage arm (Reg. \$6,156.00) **\$6,033**
❖ Lease @ \$126 for 60 months

ROTA10IRA - 10,000 lbs. capacity with inbay controls

Shown with optional adapter kits and mounting racks. Drop lights and impact wrenches not included.

ROTYA12EL1 - 12,000 lbs. capacity w/optional radius gauges

Rotary Y-Lift™ Drive On Alignment Rack

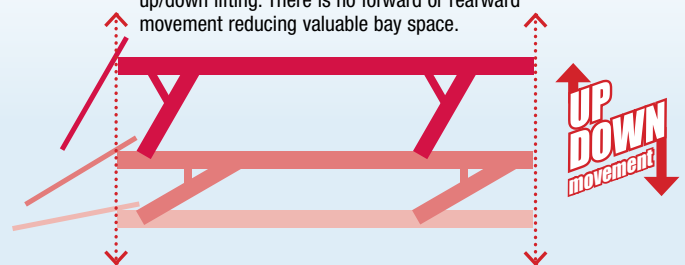

Features:

- Faster speed of rise than most comparable lifts.
- Yspace™: full side-to-side and front-to-rear access provides more room to work.
- Goes straight up and down with no forward movement as the lift rises.
- Cylinder, locks and sensors are mounted under runways for protection.
- 4-wheel alignment range of 71-1/2" to 158"

- **ROTYA12** - 12,000 lbs. capacity Y-Lift™ alignment rack, max. 2 wheel align - 164-1/2" (Reg. \$21,010.00) **\$20,590**
- **ROTYA12EL1** - 12,000 lbs. capacity Y-Lift™ alignment rack, max. 2 wheel align - 179-1/2" (Reg. \$21,010.00) **\$20,590**
❖ Lease @ \$354 for 72 months

Additional 3.2% Shipping & Handling Fee will be applied to invoice.

Unlike a parallelogram, the Y-Lift™ provides true up/down lifting. There is no forward or rearward movement reducing valuable bay space.

WinAlign® Fully Integrated Alignment (FIA)

WinAlign FIA fully integrates the functions of the console, sensors and lift into one highly efficient alignment system.

The FIA concept represents an alignment bay design engineered to minimize steps and streamline the entire process. FIA maximizes productivity by automating manual tasks and simplifying procedures.

WinAlign software includes the most extensive vehicle information database in the industry and vehicle-specific procedures to guide alignments.

FIA Fully Integrated Alignment

Optional CodeLink® integrates steering system reset within the alignment procedure to ensure proper service.

Lift-activated cameras continuously measure wheel position and provide instantaneous adjustment updates.

Explain and document service with detailed color printouts. Printouts can be customized with your logo!

Optional PowerSlide system auto-locks turnplates and slipplates, removing the hassle of lock-pins.

Optional Inflation Station sets tire pressure for all four wheels simultaneously, eliminating cumbersome hoses and repeated gauge checks.

Optional lift brackets store targets and adapters within arm's reach of each wheel to save steps.

HUNTER Engineering Company

Fully Integrated Alignment Lift Options

RX Scissor Lift

Hunter RX Scissor Lifts require minimum bay space, provide clear access to the vehicle and jacks, and offer many optional features to improve productivity. With a choice of runway lengths and lifting capacities, you can choose the perfect RX model to fit your shop space and service profile.

Features:

- Space-saving design.
- Available in 10,000- and 12,000-lb. capacities.
- Optional PowerSlide auto-locking turnplates and slipplates.
- Optional Inflation Station integrated tire inflation.
- Optional AlignLights under-vehicle lighting system.

Engineering Company

Enhanced LCD Balancers

Standard with Road Force and SmartWeight Balancers

Hunter's TPMSpecs presents hundreds of TPMS reset procedures in a comprehensive, tech-friendly format.

- ✓ Identify each vehicle's sensor type, tools needed and OE reset procedure.
- ✓ Eliminate confusing and costly reference manuals.
- ✓ Prevent comebacks from not knowing proper procedures and techniques.
- ✓ Explain needed service with color printouts.

**Road Force®
GSP9700**

HUNRF13
Reg: \$13,892.00
❖ Lease @ \$239 for 72 months

Hunter's Road Force diagnostic system performs a simulated road test on the wheel assembly to quickly identify and diagnose tire/rim-related vibration and tire-pull problems.

Exclusive Road Force features:

- The Road Force roller applies up to 1,250 lbs. of pressure against the wheel assembly to detect non-balance-related issues. Unlike non-contact measurement, the roller samples the entire footprint of the tire, including the sidewall's contribution to ride quality.
- StraightTrak® LFM (Lateral Force Measurement) assesses the lateral forces in tires that cause pulls and drifts and provides corrective measures to minimize, offset or eliminate the problem.
- The ForceMatching® procedure finds the stiffest area of a tire's sidewall and the lowest spot on a rim to be marked and matched to cancel vibration caused by radial force variation.
- TranzSaver™ compares tire circumferences as specified by OEs to prevent damage to AWD vehicles.

**Road Force
GSP9700 Balancers
PRICES AS LOW AS:**

\$11,056

HUNRF00

❖ Lease @ \$190 for 72 months

**SmartWeight®
Balancer**

HUNSW13
Reg: \$8,527.00
❖ Lease @ \$177 for 60 months

Hunter's SmartWeight balancer packages the capabilities of fast, accurate balancing service in a cost-effective design that will increase the productivity and profitability of any shop.

Exclusive Road Force & SmartWeight features:

- SmartWeight balancing technology minimizes correction weight usage and maximizes productivity by reducing wheel weight costs by 30% to 40% and speeding service time with more single-spin balances.
- The HammerHead™ TDC and BDC weight placement lasers guide the operator to the precise top-dead-center and bottom-dead-center locations for weight placement. The HammerHead TDC laser is an optional feature and the BDC laser is standard.
- The CenteringCheck® feature ensures a mounted wheel is properly centered to ensure the most accurate balance.
- Automatic Weight Mode Detection eliminates the need for the technician to select balance modes, reducing service time and possible entry errors.
- The optional, integrated wheel lift allows a single technician to easily mount and center heavy wheel assemblies, which helps prevent potential injuries and fatigue.

**SmartWeight
Balancers
PRICES AS LOW AS:**

\$5,428

HUNSW00

❖ Lease @ \$113 for 60 months

- New balancer software supports the use of a bar code scanner to instantly access TPMS information by simply scanning the VIN. (Bar code scanner sold separately.)

Price does not include mounting adapters. Adapters sold separately.

Hunter has additional wheel balancers / accessories available. Contact your local Toyota/Lexus Approved Dealer Equipment Program representative for more information.

Hunter Cutting-Edge Brake Service

HUNTER
Engineering Company

**OCL410

Hunter Has the Perfect Tire Changer to Fit Your Service Profile

Auto34 Tire Changer

Hunter's Auto34 leverless tire changer includes automated functions and unique design elements to service the toughest wheel combinations with effortless operation.

- The center-clamping wheel support accommodates rims up to 34 inches and adjusts to three clamping heights.
- The self-inserting, ultra thin tool head safely mounts and demounts tires in one fluid motion, eliminating the need for bead levers.
- The powerful motor exerts over 850 foot-pounds of torque to service even the most stubborn tire beads.
- Bead-loosening rollers gently roll the bead from the rim, yet are strong enough to safely hold the tire stationary to complete match-mounting procedures.
- Only three switches and one foot pedal control virtually all tire changing operations.
- Optional pneumatic wheel lift available.

Hunter has additional tire changers, brake lathes & accessories available. Contact your local Toyota/Lexus Approved Dealer Equipment Program representative for more information.

**Auto34
Tire Changer**
PRICE:
\$17,661
HUNTCA34
Lease @ \$304 for 72 months

TCX575 Tire Changer

The TCX575 leverless rim clamp tire changer handles a wide variety of wheels with safe, simple operation.

- The twin-cylinder tabletop clamping system handles 12- to 30-inch wheels and adjusts to two work positions.
- The patented Bead Press System includes multiple pressing arms and a bottom roller disc to aid in clamping, lubricating, demounting and mounting difficult wheel assemblies.
- The leverless tool head eliminates potential damage to beads and rims.
- The locking lower arm helps demount heavy tires and hold tires in place to complete match-mounting service.
- The powerful motor and unique two-speed drive system operates at a low speed with increased torque to prevent damage to wheel and tire beads when servicing tough combinations.
- Optional pneumatic wheel lift available.

SUPPLIED BY: SNAP-ON EQUIPMENT

All 3 Alignment Systems Include Drive-On Camera Aid and VIN Code Reader!

Arago V3D

Imaging Alignment System

MODEL NO. EEWA550AL22

Regular Dealer Price: \$26,766.00

The Arago V3D is the industry's fastest, most accurate Imaging Wheel Aligner.

- DigiSmart™ camera technology provides live and accurate measurements and flexible working heights.
• VIN Code Reader and Drive-On Camera Aid increase technician productivity.
• EZ-Link™* software and optional EZ-Stream™* hardware aid the technician with service of on-board computer data relative to computerized steering systems.

Also Available on Promotion:

MODEL NO. EEWA545ALPM

Visualiner 3D¹ includes Variable-Height Camera Support

PROMO \$19,431

FREE Drive-On Camera Aid and VIN Code Reader with Purchase!

Regular Dealer Price: \$21,624.00

Lease @ \$334 for 72 months

MODEL NO. EEWA546AL22M

Visualiner 3D² includes Variable-Height Camera Support

PROMO \$23,011

FREE Drive-On Camera Aid and VIN Code Reader with Purchase!

Regular Dealer Price: \$24,748.00

Lease @ \$396 for 72 months

Includes Drive-On Camera Aid and VIN Code Reader!

PROMO PRICE:

\$25,057

EEWA550AL22

Lease @ \$431 for 72 months

VIN Code Reader:

Allows the technician to scan the VIN and automatically input it into the aligner, saving time and eliminating the possibility of operator error.

Drive-On Camera Aid:

Eliminates the need for assistance with positioning the vehicle on the lift.

BFH 800

Fully Automated Wheel Balancing System

MODEL NO. EEWB526D

Regular Dealer Price: \$8,147.00

The BFH 800 is a fully-automated balancing system and is designed to meet the demands of high-volume shops.

- Profiling Mode – automatically measures distance, width and diameter in under 6 seconds – guaranteeing the fastest floor-to-floor time in the industry
• Laser dot identifies the optimal weight placement location, accounting for behind-spoke tape-weight placement, as appropriate
• Weight Wizard* software tracks wheel weight usage over time to optimize future purchasing
• Power Clamp feature improves clamping consistency and reduces floor-to-floor cycle time

* Patented and/or Patent-Pending Feature

PROMO PRICE: \$7,250 EEWB526D Lease @ \$151 for 60 months

NEW LOOK!

2011 Brings Newly Approved 2-Post Lifts

John Bean

SUPPLIED BY: SNAP-ON EQUIPMENT

2-Post Lifts

John Bean 2-Post lifts give you the highest capacity combined with the best quality, features and versatility at the most reasonable cost of any North American manufactured lift.

All John Bean 2-Post Lifts:

- Feature single-point safety lock release for 2-hand lift lowering – keeps the operator safe while lowering the lift!
- Include mechanical safety locks for added safety
- Are assembled with industrial-strength columns for increased strength and durability
- Come with pre-loaded lift arms – straight even when loaded!
- Use dual pre-stressed equalizing cables – ensures level lifting!
- Are ALI Certified by ETL to ANSI standard ALCTV-2006

10,000 lb. 2-Post Combo (Symmetric/Asymmetric) Lift
MODEL NO. JBC42010VSA

Additional models are available on promotion. Call your program representative at 800-368-6787 for details.

Quadriga ATC 1000

Fully-Automatic Tire Changer

MODEL NO. EEW536B

Regular Dealer Price: \$24,062.00

The Quadriga ATC 1000 is the industry's first truly automatic tire changer. No other tire changer automatically measures tire diameter, uses imaging technology to precisely profile the wheel, automatically positions the tire for hydraulically-driven dual bead breaking, and uses precise motor controls to remove the tire from the wheel.

RYTEC

HIGH PERFORMANCE DOORS

High Speed Doors

With a remarkably fast payback, Rytec high-speed doors are one of the fastest growing trends in automotive dealerships.

Benefits:

Reduce Maintenance Costs - Unlike typical repair-prone overhead doors, Rytec doors are specifically engineered to open and close thousands of times a day, day after day, year after year. The industrial-strength technology offers near continuous uptime and requires only minimal preventive maintenance.

Improve the Flow of Traffic - Automated high-speed door systems improve the speed and flow of vehicles moving through your facility. Instead of waiting 1 minute or more for conventional doors to open, most Rytec doors open in less than 2 seconds.

Increase Wind Load Protection - In addition to ensuring compliance with building codes, hurricane-rated doors protect interiors from damaging high winds, storms and flying debris.

Improve Security - Security is a fundamental issue for all dealerships. Since the Rytec doors close quickly after a vehicle passes through, unauthorized access is essentially eliminated.

Reduce Heating and Cooling Costs - Less outside air infiltration translates directly into lower heating and cooling costs.

Increase Natural Light - Illuminate service bays and express bays with natural light at a fraction of the cost of conventional electric lights.

Fast Savings... Rytec's famous Spiral® FV door lowers heating and cooling costs for service departments.

Choose from these available models:

- **PredaDoor® NXT** *"America's Leading High-Speed Fabric Door"*
The NXT Quick-Set™ repair system engages with the push of a button after aligning the bottom bar. The PredaDoor NXT offers high performance for interior and exterior applications where speed, low maintenance and dependability are critical. Plus, a two-year warranty on materials and workmanship makes it a great value.
- **Spiral®** *"High Security, High Speed and Architectural Style"*
With an opening speed of up to 60 inches per second, the legendary Spiral door offers the speed you need for high-traffic situations. The award-winning Spiral technology is remarkable smooth and quiet. Rigid, aluminum slat construction eliminates any need for a second overnight security door.
- **Spiral® FV (Full View)** *"Ultra High Speed, High Security and Full Vision"*
Take one look at this door in action and it makes an immediate impression. With an ultra-high opening speed of up to 100 inches per second, it's extremely fast. Yet for all that speed, its unique Spiral technology keeps it whisper-quiet. And its top-to-bottom full-width window slats provide a full view for natural light and an extra measure of safety at the threshold. Not to mention, a sharp, high-tech look. All of which promote an enviable image of cutting-edge operations.
- **Spiral® HZ (Hurricane Zone)** *"High Speed Door Engineered to Withstand a Hurricane."*
The first and only high-speed, high-performance door offering certified compliance with Miami-Dade County and the Florida Building Codes. Rigid, aluminum slats with reinforced hinges combined with the galvanized steel side columns offer security and the strength to handle a hurricane.

* Site survey required, contact an Approved Dealer Equipment customer service representative to make arrangements. Every Rytec door is custom manufactured.

BUILD-A-BAY™ Integrated Storage Solutions

BUILD YOUR SERVICE BAY YOUR WAY.

Put it together your way – to match your needs. Lots of choices – top chests, drawers, work surfaces, end cabs, and risers. Plus plenty of opportunities to add more capacity, more features, more accessories.

QUALITY MATERIALS & COMPONENTS.

We start with the best materials; the steel, superior drawer slides and extra-secure K-series locks. And we offer accessories that are every bit as good as the boxes – and fit perfectly.

BETTER MANUFACTURING SYSTEMS.

It helps when you have been providing the finest tool storage cabinets for more than 85 years. Our engineers have years of experience along with the latest in automated design. Our precision welding process and industry-leading powder-coat paint system delivers the famous Snap-on® finish.

Our “Pre-Treat” process and unsurpassed powder-coat paint system allows us to provide a superior finish in a wide variety of custom colors.

INVEST IN THE FUTURE ON TODAY'S BUDGET.

Take your service facility to the next level with this solid investment. Build your brand, increase customer loyalty & improve technician retention.

Call today to set up your design consultation.

i4 Inverter Spot Welder *Water Cooled, Repair Info Onboard.*

MODEL NO. PROI4

SUPPLIED BY: PRO SPOT INTERNATIONAL

Regular Dealer Price: \$19,867.00

❖ **Lease @ \$342 for 72 months**

The **i4 technology is revolutionary compared to others in the industry.** It not only measures, monitors and automatically adjusts the weld current, it does so on the secondary loop at the tips. Designed to handle the difficult-to-weld materials such as boron steels and advanced high strength steel alloys (AHSS). The i4 comes with an OEM programmable feature, where detailed repair illustrations and customized weld programs from the OEM are stored.

Features: Inverter technology - 2,000 Hz, Water cooled, Fully upgradable software stored on removable flash card, Ceiling mounted version available (optional), Built-in MIG welder available (optional).
