NEW!

HawkEye Elite™ Alignment Systems

Premium HawkEye Elite Consoles
PROMO PRICES AS LOW AS:
\$12,918*
HUNWA423
Lease @ \$224 for 72 months

Hunter's HawkEye Elite™ systems elevate alignment service to a new level of productivity.

Patented QuickGrip™ adaptors and three-dimensional targets work with high-resolution camera sensors and the most powerful alignment software in the industry to help shops take full advantage of one of the most profitable auto services.

HUNHE421FC

HUNWA445

Features:

- The most extensive vehicle information database in the industry includes over 30 years of vehicle specifications and vehicle-specific procedures to guide alignment adjustments.
- Patented, high-resolution four-camera system continuously monitors targets at each wheel and instantly updates adjustment readings on-screen.
- 3D modeling of wheel position provides the most accurate alignment measurements.
- Quick roll-forward compensation, exclusive to Hunter, allows a technician to compensate all four wheels and capture initial measurements in one motion.
- Detailed color printouts help explain needed parts and repairs, and documents completed work.
- A digital library of instructional videos, vehicle-specific photos and illustrations can be used to educate technicians and customers alike.
- The award-winning CodeLink steering system reset device and a VIN bar code scanner are included as standard accessories.
- Fully Integrated Alignment capability minimizes steps and streamlines the alignment process by automating manual tasks and simplifying procedures.
- Supports the use of a drive-on camera† to assist with positioning the vehicle on the lift and the TouchRemote™ feature, which allows operation of the system remotely using an Apple® iPhone®, iPod touch® or iPad® device.**
- Choose from a variety of console styles, sensor configurations and display sizes, including a 22-inch touchscreen.

†Drive-on camera sold separately.

**TouchRemote requires free app from Apple iTunes® store and an Apple iPhone, iPod touch or iPad, sold separately.

RX Scissor Lift

Hunter RX Scissor Lifts require minimum bay space, provide clear access to the vehicle and jacks, and offer many optional features to improve productivity. With a choice of runway lengths and lifting capacities, you can choose the perfect RX model to fit your shop space and service profile.

Features:

- Space-saving design.
- Available in 10,000- and 12,000-lb. capacities.
- Optional PowerSlide auto-locking turnplates and slipplates.
- Optional Inflation Station integrated tire inflation.
- Optional AlignLights under-vehicle lighting system.

HUNRX10IS

Save more space with a flush-mount installation. Flush-mount installation is available for all RX models at no extra charge.

Enhanced LCD Balancers

TPMS Specs

Standard with Road Force and SmartWeight Balancers

Hunter's TPMSpecs presents hundreds of TPMS reset procedures in a comprehensive, tech-friendly format.

- ✓ Identify each vehicle's sensor type, tools needed and OE reset procedure.
- ✓ Eliminate confusing and costly reference manuals.
- ✓ Prevent comebacks from not knowing proper procedures and techniques.
- ✓ Explain needed service with color printouts.

**Road Force®
GSP9700**

HUNRF13
Reg: \$13,892.00
❖ Lease @ \$241 for 72 months

Hunter's Road Force diagnostic system performs a simulated road test on the wheel assembly to quickly identify and diagnose tire/rim-related vibration and tire-pull problems.

Exclusive Road Force features:

- The Road Force roller applies up to 1,250 lbs. of pressure against the wheel assembly to detect non-balance-related issues. Unlike non-contact measurement, the roller samples the entire footprint of the tire, including the sidewall's contribution to ride quality.
- StraightTrak® LFM (Lateral Force Measurement) assesses the lateral forces in tires that cause pulls and drifts and provides corrective measures to minimize, offset or eliminate the problem.
- The ForceMatching® procedure finds the stiffest area of a tire's sidewall and the lowest spot on a rim to be marked and matched to cancel vibration caused by radial force variation.
- TranzSaver™ compares tire circumferences as specified by OEs to prevent damage to AWD vehicles.

**Road Force
GSP9700 Balancers

HUNRF00

❖ Lease @ \$192 for 72 months

**SmartWeight®
Balancer**

HUNSW13
Reg: \$8,527.00
❖ Lease @ \$179 for 60 months

Hunter's SmartWeight balancer packages the capabilities of fast, accurate balancing service in a cost-effective design that will increase the productivity and profitability of any shop.

Exclusive Road Force & SmartWeight features:

- SmartWeight balancing technology minimizes correction weight usage and maximizes productivity by reducing wheel weight costs by 30% to 40% and speeding service time with more single-spin balances.
- The HammerHead™ TDC and BDC weight placement lasers guide the operator to the precise top-dead-center and bottom-dead-center locations for weight placement. The HammerHead TDC laser is an optional feature and the BDC laser is standard.
- The CenteringCheck® feature ensures a mounted wheel is properly centered to ensure the most accurate balance.
- Automatic Weight Mode Detection eliminates the need for the technician to select balance modes, reducing service time and possible entry errors.

**SmartWeight
Balancers
PRICES AS LOW AS:**

\$5,428

HUNSW00

❖ Lease @ \$114 for 60 months

Price does not include mounting adapters. Adapters sold separately.

Hunter has additional wheel balancers / accessories available. Contact your local Toyota/Lexus Approved Dealer Equipment Program representative for more information.

- The optional, integrated wheel lift allows a single technician to easily mount and center heavy wheel assemblies, which helps prevent potential injuries and fatigue.
- New balancer software supports the use of a bar code scanner to instantly access TPMS information by simply scanning the VIN. (Bar code scanner sold separately.)

Hunter Cutting-Edge Brake Service

HUNTER

Engineering Company

BL505 Brake Lathe

The BL505 brake lathe features a unique design that allows the operator to change the setup from rotors to drums and vice versa with unprecedented ease and speed.

A choice of optional HunterPro adaptor kits is available to customize the lathe to match your service needs.

OCL410 On-Car Rotor Lathe

Hunter's OCL410 on-car brake rotor lathe effectively eliminates pedal pulsation comebacks while increasing the productivity of your brake technicians.

The HUNOCL410TL includes adapters to service Toyota and Lexus vehicles.

Hunter Has the Perfect Tire Changer to Fit Your Service Profile

Auto34 Tire Changer

Hunter's Auto34 leverless tire changer includes automated functions and unique design elements to service the toughest wheel combinations with effortless operation.

- The center-clamping wheel support accommodates rims up to 34 inches and adjusts to three clamping heights.
- The self-inserting, ultra thin tool head safely mounts and demounts tires in one fluid motion, eliminating the need for bead levers.
- The powerful motor exerts over 850 foot-pounds of torque to service even the most stubborn tire beads.
- Bead-loosening rollers gently roll the bead from the rim, yet are strong enough to safely hold the tire stationary to complete match-mounting procedures.
- Only three switches and one foot pedal control virtually all tire changing operations.
- Optional pneumatic wheel lift available.

Auto34 Tire Changer
PRICE:
\$17,661
HUNTCA34

Lease @ **\$307** for 72 months

Hunter has additional tire changers, brake lathes & accessories available. Contact your local Toyota/Lexus Approved Dealer Equipment Program representative for more information.

TCX575 Tire Changer

The TCX575 leverless rim clamp tire changer handles a wide variety of wheels with safe, simple operation.

- The twin-cylinder tabletop clamping system handles 12- to 30-inch wheels and adjusts to two work positions.
- The patented Bead Press System includes multiple pressing arms and a bottom roller disc to aid in clamping, lubricating, demounting and mounting difficult wheel assemblies.
- The leverless tool head eliminates potential damage to beads and rims.
- The locking lower arm helps demount heavy tires and hold tires in place to complete match-mounting service.
- The powerful motor and unique two-speed drive system operates at a low speed with increased torque to prevent damage to wheel and tire beads when servicing tough combinations.
- Optional pneumatic wheel lift available.

Model No. **CCI77950** - Recharge Oil Pump (Reg. \$194.00) meets this requirement.

BUILD-A-BAY™
Integrated Storage Solutions

BUILD YOUR SERVICE BAY YOUR WAY.

Put it together your way – to match your needs. Lots of choices – top chests, drawers, work surfaces, end cabs, and risers. Plus plenty of opportunities to add more capacity.

QUALITY MATERIALS & COMPONENTS.

We start with the best materials; the steel, superior drawer slides and extra-secure K-series locks.

BETTER MANUFACTURING SYSTEMS.

It helps when you have been providing the finest tool storage cabinets for more than 85 years. Our engineers have years of experience along with the latest in automated design. Our precision welding process and industry-leading powder-coat paint system delivers the famous Snap-on® finish.

Our “Pre-Treat” process and unsurpassed powder-coat paint system allows us to provide a superior finish in a wide variety of custom colors.

INVEST IN THE FUTURE ON TODAY’S BUDGET.

Take your service facility to the next level with this solid investment. Build your brand, increase customer loyalty & improve technician retention.

Single Bay Starting As Low As:

\$3,700!

Plus shipping, tax and install.

Call 800-368-6787 for details.

PFM9.2 Computerized On-Car Lathe with 4 Adaptors

Invision Toyota/Lexus Digital Battery System Analyzer Kit with Printer

MODEL NO. MTRNVS8150KT

Handheld tester platform gives technicians/ASMs the portability required in the shop and on the service drive.

Features:

- Toyota-specific battery test algorithms including test-by-model or stock code means improved accuracy and decisiveness and faster customer service.
- Alphanumeric keypad, arrow key scrolling and hot keys make the analyzer easy to use.

Benefits:

- Utilize the most advanced testing technology for a complete solution to all battery related concerns.
- Increase sales opportunities by performing comprehensive battery tests in less than 10-seconds on every customer's vehicle.
- Save time and money by making more accurate decisions on marginal batteries (reduces the number of recharge/retest decisions).
- The new State-of-Health (SOH) and State-of-Charge (SOC) test results give the dealer the visual tools to communicate the expected lifespan of the battery.
- The Wireless IR Printer allows you to print test results quickly to consult with customers.

❖ All lease financing, rates, and terms for the Dealer Equipment Program are subject to credit approval by Lessor and the terms of the Lessor's preferred lease documents. Taxes, shipping/install and cost of financing (e.g. Document fees) are extra. In the event of default the terms of the contract will apply and additional amounts may be due. Lease payments and terms provided are based on rates available as of 06/01/2011 on our \$1.00 buyout lease program. Actual lease rates will vary depending on the available terms offered at time of lease commencement. 1st and last lease payments due at lease signing. Contact your Approved Dealer Equipment Program for more details.
