On the safe side.

Partner with DEKRA and Mopar Service Equipment:

The Nationwide, ALI-Certified Lift Inspection Network You Can Trust

A global leader in safety, DEKRA offers FCA dealers an unbiased perspective and the most trustworthy lift inspections in the industry.

Lifts are often one of the most expensive and valuable tools in your dealership. It can be overwhelming to conduct annual inspections to protect this investment, especially if you have multiple locations. When you work with a non-ALI-certified inspector or the same vendor for both inspection and repairs, it can lead to a conflict of interest and higher repair costs.

Ultimate Confidence

DEKRA is an FCA preferred supplier and our ALI-certified inspectors focus solely on lift inspections. We do not sell parts or perform repairs. When you partner with DEKRA, you'll have confidence knowing the repairs we recommend are truly necessary.

Discover the DEKRA Difference

DEKRA has been a trusted name in safety since 1925. Today, we employ 43,000 people in more than 56 countries, including the U.S. As partners with the world's largest auto manufacturers, we specialize in testing, inspection and certification. Our mission is to drive safety at work, at home and on the road.

Unbeatable Benefits

Join forces with DEKRA and Mopar Service Equipment to enjoy the following advantages:

Unbiased inspections:

Because we don't sell lifts, parts or repairs, we'll never try to upsell.

Minimal downtime:

We catch issues others miss to keep you up and running.

Decreased Costs:

With our expertise, many customers see long-term repair costs decline.

Nationwide network:

DEKRA has certified inspectors across North America.

Standardized Reporting:

Customers can easily track and manage inspections for multiple facilities.

DEKRA Success Story

Earlier this year, the DEKRA lift inspection team visited a dealership who had a large repair estimate from a local lift inspector/distributor. DEKRA reinspected the same lifts, determining only minimal repairs were needed, saving the dealership over \$60,000.
