

# Audi Authorized Collision Repair Equipment Tooling Self-Assessment - 2024

While becoming an Audi Authorized Collision Repair Facility is a substantial investment, many of the requisite tools, equipment and other requirements are shared among other brands. This checklist can help you maximize your investment. Use it to assess which Audi requirements you may already meet, and those you have yet to complete. **Unless otherwise noted, tools and requirements are required for both Hybrid and Ultra Repair Facilities.**  
 \* For the non-Audi brands listed below, please note that you should refer to their requirements as the below only reflects equipment that they will accept that Audi accepts. Additional requirements may be needed for the equipment indicated below for that brand.  
 \* Discontinued items are grandfathered for use but are not guaranteed to be serviced by manufacturer.

Check here	Picture ID	Item Number	Item Name	Specifications/ Notes	Type	Discontinued? (Grandfathered)	Audi requirement also satisfies these brands where noted.							
							Audi	VW	Porsche	Bentley	BMW	Jaguar Land Rover	Honda Acura	GM Cadillac
